BISP seminar on “Technology based Governance for Poverty Alleviation and Women Empowerment”

The Benazir Income Support Programme (BISP) is holding a roundtable seminar under the title “BISP Technology Based Governance for Poverty Alleviation and Women Empowerment” on Thursday.

BISP has revolutionized the design and management systems of the programme by introducing Technology Based Management Systems and adopting international best practices to ensure transparency in its operations. Also among many innovations introduced by BISP are adoption of Poverty Scorecard, establishment of a database on poverty, smart card and mobile phone based payment mechanisms and electronic reconciliation of funds. The civil society, media and the academia will also participate in the seminar.
