**BISP monitoring cell making surprise visits to ensure transparency in disbursement**

Special monitoring teams of Benazir Income Support Programme (BISP) are making surprise visits of post offices across the country to ensure transparent and speedy delivery of BISP money orders to the deserving families. This step shows how transparent the programme is.

It must be clarified here that the Pakistan Post is charged with the duty to BISP disburse cash assistance to the deserving families. The BISP monitoring teams make surprise visits to the post offices to make sure that the financial assistance is delivered to the deserving families. Federal Minister/Chairperson BISP Farzana Raja has taken serious notice of complaints against the post office staff and 26 employees of the post office have been sacked up till now after complaints were received against them.

For this very reason BISP is issuing Benazir Smart Cards to deserving families so they could receive financial assistance in a transparent manner with the help of modern technology. Benazir Cards will be issued in those districts where Poverty Survey has been completed and work on this is in full swing.
